SYNTHETIC SI ? NOT A LAB PROTOCOL

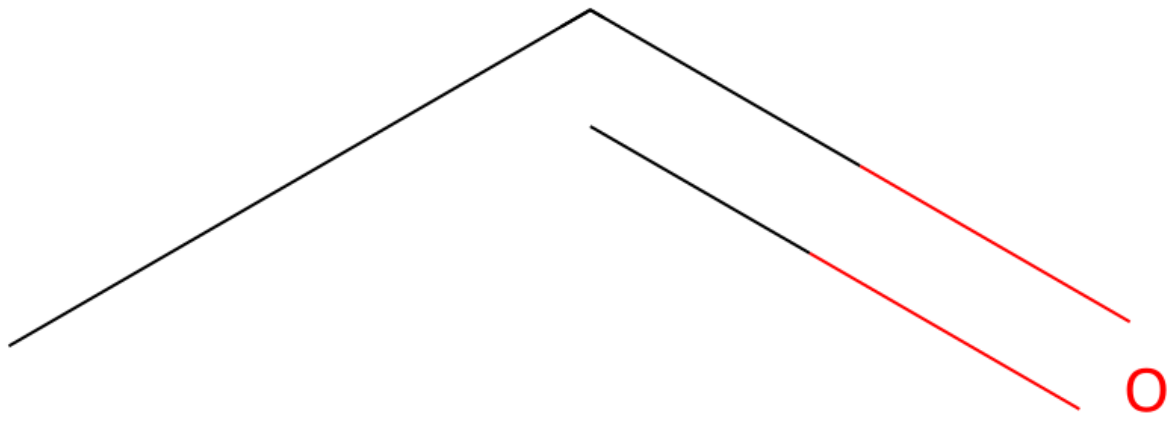

A ethanol

Synthetic compound A: formula C2H6O; specified centers 0; specified double bonds 0; components 1.

SYNTHETIC SI ? NOT A LAB PROTOCOL

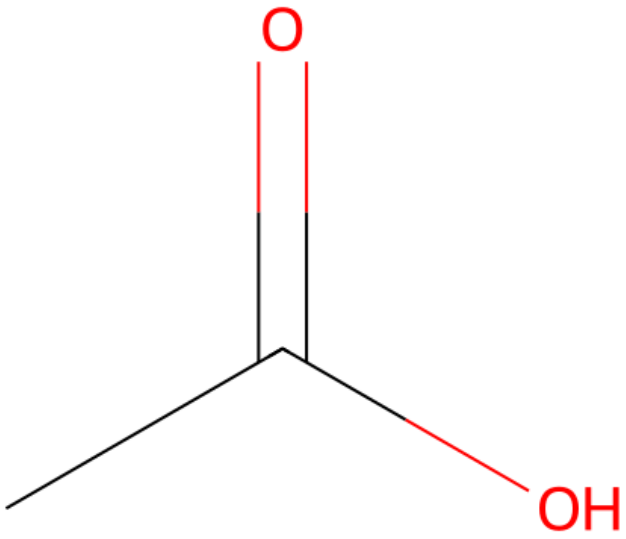

B acetaldehyde

Synthetic compound B: formula C2H4O; specified centers 0; specified double bonds 0; components 1.

SYNTHETIC SI ? NOT A LAB PROTOCOL

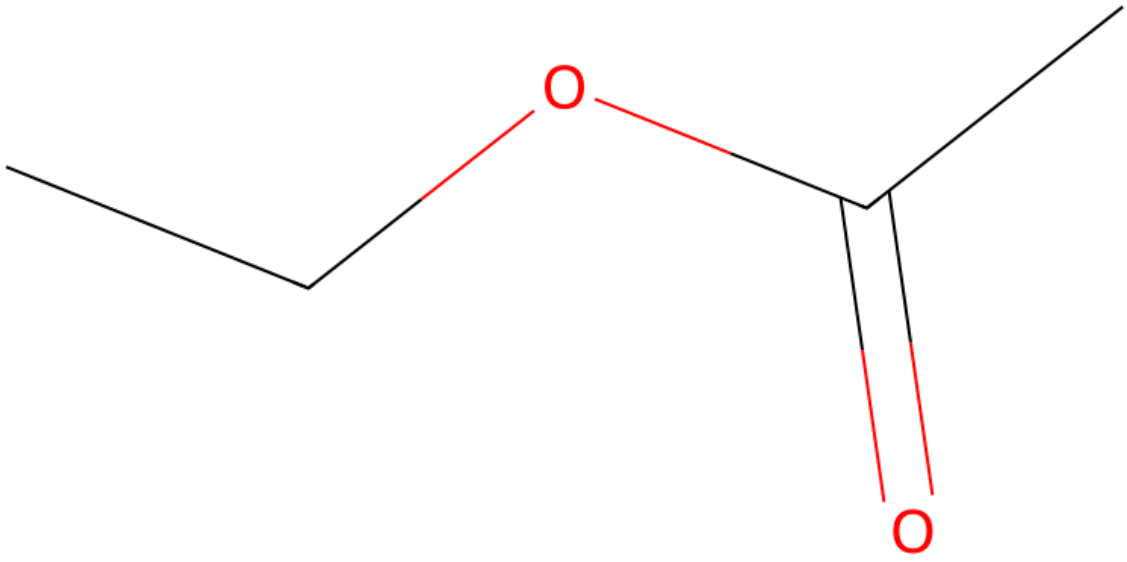

C acetic acid

Synthetic compound C: formula C2H4O2; specified centers 0; specified double bonds 0; components 1.

SYNTHETIC SI ? NOT A LAB PROTOCOL

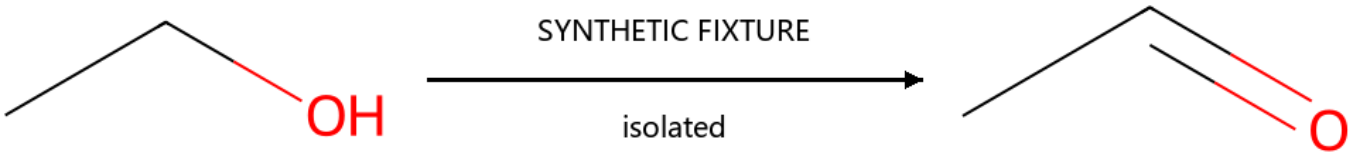

D ethyl acetate

Synthetic compound D: formula C4H8O2; specified centers 0; specified double bonds 0; components 1.

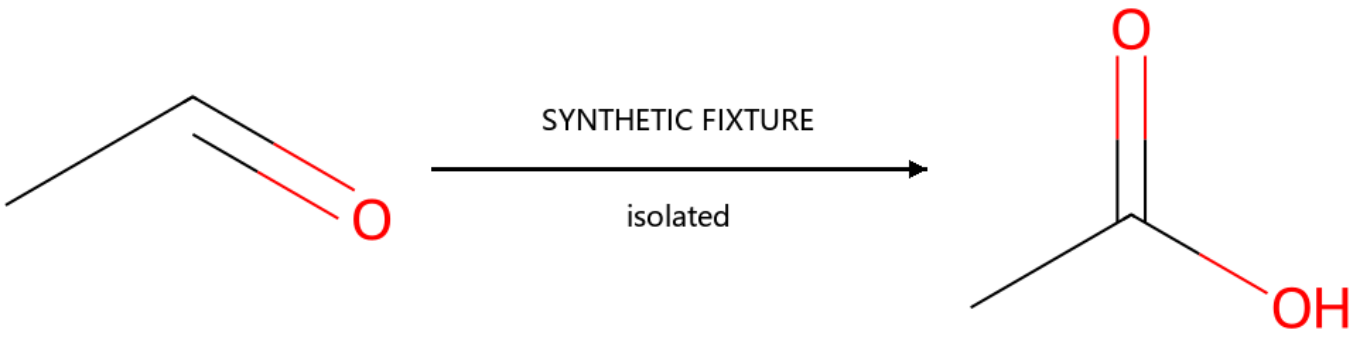

SYNTHETIC SI ? NOT A LAB PROTOCOL

E1

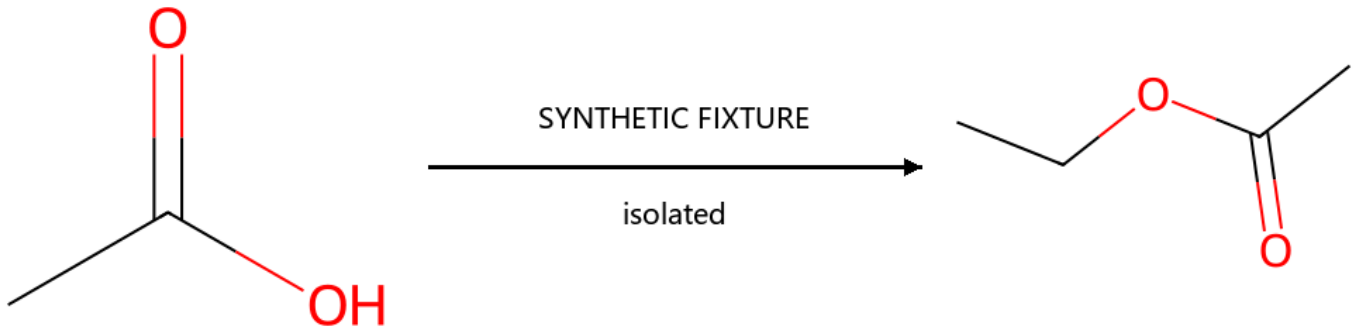

Synthetic experiment E1: A to B; handling isolated; 1 simulated stage(s). Reference basis 1.00 mmol is synthetic. No experimental conditions or measured yields are supplied.

SYNTHETIC SI ? NOT A LAB PROTOCOL
E2

Synthetic experiment E2: B to C; handling isolated; 1 simulated stage(s). Reference basis 1.00 mmol is synthetic. No experimental conditions or measured yields are supplied.

SYNTHETIC SI ? NOT A LAB PROTOCOL
E3

Synthetic experiment E3: C to D; handling isolated; 1 simulated stage(s). Reference basis 1.00 mmol is synthetic. No experimental conditions or measured yields are supplied.
